ADDITIONAL STUDIES AND OPPORTUNITIES

Options for obtaining additional training in careers before you graduate (some programs have additional costs)

Future Doctors Program by Harvard Student Agencies and Learn with Leaders is a medical-experiential program for students across borders. Dive deep into the pre-medical field with an introduction to Genetic Inheritance, Hormones, Immunology, Organic Chemistry, while acquiring 21st century skills to succeed in the medical field through real world exposure, in this program. Spread over two weekends, it is a one-of-its-kind medical-experiential program for high school students across the globe aspiring to become change makers in the medical field. The program will enable students to dive deep into the pre-medical field with an introduction to Genetic Inheritance, Hormones, Immunology, and Organic Chemistry, while acquiring 21st-century skills to succeed in the medical field through real-world exposure. Please feel free to reach out to us for any clarifications or [schedule a call with us](#).

Seattle Children's Research Institute is committed to building an inclusive and diverse workforce, and inspiring the next generation of scientists, physicians and healthcare workers. During the summer, our Science Education Department offers **high school students** the opportunity to learn more about biomedical research. For summer 2023, we are offering two programs led by PhD-level scientists and educators. Students will learn how to work in a research laboratory environment and learn about topics including biochemistry, immunotherapy, gene editing and infectious diseases. Students will also participate in workshops on college readiness and career exploration. These programs provide students with a solid foundation for a future career in biomedical research. There is no cost to participate. (Click the link in the name above for more information.)

Bank of America Student Leaders® program, annually connects more than 300 community-minded high school juniors and seniors from over 100 communities to employment, skills development and service. Through paid internships with local nonprofits and participation in a national leadership summit, they gain practical work and life experience. [learn more about our eligibility criteria](#). Application process for 2024 will begin in October 2023.

The **University of Washington** offers several **STEM internship programs**. Their deadlines are throughout the year- keep checking this page for more info on next year's programs! [Internships | UW STEMsub \(uwmsub.org\)](#)

Young Executives of Color (YEOC) is a nine-month college pipeline program hosted by the University of Washington Foster School of Business. Students attend sessions on the UW campus one Saturday every month for college preparation, business lectures, professional development, and powerful mentorship. YEOC is a FREE nine-month program. The only cost to students is transportation to UW Seattle. [Young Executives of Color \(YEOC\) | Foster School of Business \(uw.edu\)](#)
